1. ROSALITE

#49 UNCONDITIONAL FORGIVENESS

Rosalite holds the dual tone of Unconditional Forgiveness. Unconditional forgiveness is a state of being in which ascension is born. Ascension can only really occur as forgiveness takes flight. Our kingdom will aid humans in integrating all movements of forgiveness or restoring such movements in the event of a karmic shattering of field. Often those in the dance of life that desire to perpetuate patterns shatter one's capacity to forgive making it difficult to complete upon the associated karma. Rosalite will help ascending humans to create completion with difficult karmic dances in one's dance of life by sustaining a state of forgiveness in one's field rotation..

As a co-creator the Earth Mother and Father aid one in one's dream weaving; and as such one always has enough to fulfill upon one's agreements. Everything in this creation operates founded upon agreements. If one has agreements to help with Terra and Alfie's ascension, then one will be provided for in the dream to fulfill upon one's goals. The silver kingdom can aid those ascending in mastering a state of co-creatorship with earth.

Copper holds the vibration of Unconditional Truth in the dual tone notes in the Language of Light. Mastering unconditional truth is a state of being that allows one's own truth in action in the dance of life along with all others. All truths are honored as such. Copper will aid initiates in learning the movements of unconditional truth. It is only as one lives one's own truth that one can accept the truth of all others, even those who are not ascending or are from other creations in genealogy. It is in the unconditional acceptance of all other truths that one can also find one's way to peace in the dance of life. 8. TANZINITE

#77 UNLIMITED JOY

Tanzanite holds the vibration of Unlimited Joy in the dual tones of the Language of Light. What is unlimited joy? It is an ecstatic state of being that is associated with unending expansion. Most of the patterns the Earth Mother and Father have been consumed with compress the field and in the contraction humans then feel depressed, listless, hopeless, powerless and in fear. As the field expands, the depression lifts and one's hope power and love is recovered. The movements of unlimited joy aid humans in learning to continue to expand rather than contract. Our kingdom can help on bad ascension days to allow initiates to remember to expand back into the joy again.

Many others who are ascending will also learn to master a universe of their own, possibly as they step out to teach or heal and gather groups of other ascending humans. Ascending humans are creating a new consensus reality of their own that shall step down as new patterns and dreams within your civilization in time as they dominate the thought-form of the whole. Mila and Oa have been involved with the Earth Mother and Father in altering the human consensus dream into a new dance of ohana to cause love to become the foundation of human civilization. Siderite holds the vibration of All That Is. As many universes interconnect the dance of All That Is is experienced. The dance of All That Is interconnects all creators, creations, worlds and universes in an elaborate dance that is choosing to return "home to the Tao" at this time and end of cycle journey. All that Is is being redefined at this time to include the Tao, a force that we were all once spawned from long ago. As such Siderite will aid ascending humans into connecting with your own Tao within in the mastery over the All That Is movements in your personal ascent.

17. SMITHSONITE #95 INFINITE

Smithson holds the Dual Tone vibration of Infinite within the Language of Light. Creators and creations and All That Is is infinite. There is no end to creation as this is the experience of the Tao; to create, experience, expand, learn, grow, evolve, and return home with each creational experience so that all may learn from from one another over time. In mastery over the infinite movements within one's field, one will begin to open to the possibility of other experiences that your Tao within has created in order to learn, grow and evolve; and also anchor movements that are supportive of your ascension in this experience. Smithsonite will aid ascending humans in mastery over the movements of infinite so that one may experience the infinite possibility of who one is within the Tao from which one was spawned as consciousness.

18. WAVELITE #96 INFINITE MAGNITUDE

Wavelite holds the first Tri Tone vibration of Infinite Magnitude within the Language of Light. There is no end unto the Tao. Each experience within the Tao effects all other creators and creations within the whole. The dance is infinite in its magnitude as a result. Each shift that those ascending make within or within the Earth Mother and Father effects the Tao and all within it as all is holographic and interconnected in an intricate manner with each part affecting the whole. The Tao

has a large problem and it is reflected in the destruction in this experience; as each ascending human moves towards love and releases the thought-form of hate and the destruction that it causes, it effects all other parts of the Tao in self healing. The healing in this region of domain is therefore required in order for the Tao to heal. Nothing is for naught and everything serves within the Tao, even the most painful of experiences. Therefore you are a gift unto the Tao in your choice to ascend and return home bringing the lessons of this experience to light so that all may heal within the whole. This is infinite magnitude in action. Wavelite will aid ascending humans in mastering this movement so that one may contribute unto the Tao's journey in your own ascension journey home.
