

Hawaiian Ancestors By Gigi

## *48 Single Tones of the Language of Light Translated into Hawaiian*

*By Paige Wickline*

Here are the single tones of the language of light translated into Hawaiian. The Hawaiian language has retained a beautiful rotational flow that can be felt as one listens to the music or hears it spoken. The hula or Hawaiian dance is also an expression of rotational magnetic energy flow the dancer shares with the audience. The rotational flow of the language and dance allow blessings to be exchanged between the performers and the audience and is lovely to experience.

The Hawaiian language, culture and ancestors are related to the Lemurian race from long ago who had magnetic genetics and energy flow. The Hawaiian race was the last to lose the triple lotus flow only a few hundred years ago and so they have perhaps the greatest rememberce of magnetic energy flow. This flow is resonate with Earth and allows greater wholeness, balance and peace within ones field and form.

The collective consciousness of the Hawaiian Ancestors has great wisdom on unity based energy flows and working with kundahlini energy flow to fuel ones ascension forward. I offer healing sessions where the wisdom and information from the Hawaiian Ancestors is offered to support ones continued health, well being and ascension.
